PROTEST FROM IRISH.

Object to the Exclusion of the Delegate Chosen to Represent Them.

PARIS, Jan. 16.-Representatives of France, Great Britain, Italy, Greece, Belgium, Spain, Japan and Brazil, members of the Council of the League of Nations, met in the "clock room" of the French Foreign Office at 10 o'clock this morning for the lengue. The United States was not

Premier Venizelos, for Greece; Carlo would indorse him and bring about Ferraria, for Italy; Paul H. Mana, for a coalition Government for the first Belgium; Baron Matsui, for Japan; Dr. Gastoa De Cunha, for Brazil; Count Quinones De Leon, for Spain.

The Council organized at 19.30 e'clock by electing Leon Bourgeois, nee of both parties, Mr. Hoever President of the French Senate, as would naturally be obliged to ignore chairman and confirming the choice party lines and draw upon individof Sir Eric Drummond of Great Brit- uals from both parties in selecting the Justice and Foreman Almirall, of ain as General Secretary.

The first official act of the League ment. Council was the appointment of a ion to trace upon the spo the frontiers of the territory of the

The first formal protest to make its appearance came from "the envoys of the elected Government of the Irish Republic" against "the unreal, English simulacre of an international league of peace."

No mention of the protest was made made during the meeting of the Council but copies were handed to the newspaper correspondents after they left the Foreign Office. The document was signed "Quaklaigh Duffy. The protest insisted that the League was illusory and incomplete, lacking authority and sanction, and declared that the United States stands out "in indignation and repudiation" of it.

"The task of presiding at this meet ing," said Mr. Bourgeois in his opening address, "and inaugurating this great international institution should have fallen to President Wilson. We respect the reasons which still delay final decision by our friends in Washington, but express the hope that their difficulties will soon be overcome and that a representative of the great American Republic will occupy he place awaiting him among us. The work of the council will then assume definite character and will have that particular force which should be associated with our work."

In closing his address Mr. Bourgeois said solemnly: "With eyes fixed on the distant future but with our feet on the solid ground of political and social relations we will create a world in which this league can develop a spirit of justice and a desire
